Pam Am Pool Ceiling, Lighting and Public Address System Replacement Project Timeline

Acoustic Ceiling and Lighting
Assessment Completed
October 2017

Project RFP Awarded for Consultant Services **February 2018**

Facility Closed to the Public

July 30 to October 4

Main Pool Tank Closed to the Public October 5 to December 31, 2018

The main tank will remain closed until the end of 2018. Sections of the facility, including the track, may be closed periodically to allow for the construction project to proceed safely.

Duration of the capital construction project has not been finalized, it is anticipated that the work may take until the end of 2018 to complete. The largest portion of the project, the replacement of the ceiling, will be the primary determinant for the length of the closure.

To help minimize effects of the closure on sport clubs, swimming lesson participants, active living members, general use patrons and private service providers, the Public Service is working to identify other City pool and recreation locations with available space.
