

David Wagner Associates Inc. All rights reserved. All drawings are conceptual in nature. It is to be clearly understood that the author, in producing said drawings, shall be liable for any and all loss, damage or injury that may result from the drawings themselves, or from the construction work produced from this plan, or from any claim that may result subsequent to the project being constructed and/or commencing on the site, whether such claims are brought by persons using the site, or by the owners or others of neighbouring properties.

Should any claim be made directly against the author as a result of the drawings themselves, or as a result of the way in which the project is constructed in accordance with these drawings, or as a result of any loss, injury or damage that may be caused either on the site or outside the boundaries of the property or premises, the author is to be indemnified by the owner, in full, including the costs of any and all expenses incurred through claims against the author, or the costs of any proceedings entered into by the author, or settling any judgments made against the author.

No reproduction may be made without the permission of the Landscape Architect and the owner. The drawings are the property of the Landscape Architect. If accepted and dated, the drawings remain the property of the Landscape Architect. All plans to be returned to the Landscape Architect on request.

This drawing shall not be used for building purposes until consented by the Landscape Architect.

The contractor shall check all dimensions and other data on site and report any discrepancies to the Landscape Architect.

Figured dimensions to be taken in preference to scaled dimensions.

If in doubt please ask.

Notes

DATE ISSUED
February 28, 2006

LOCATION OF UNDERGROUND STRUCTURES AS SHOWN ARE BASED ON THE BEST INFORMATION AVAILABLE BUT NO GUARANTEE IS GIVEN THAT ALL EXISTING UTILITIES ARE SHOWN OR THAT THE GIVEN LOCATIONS ARE EXACT. CONFIRMATION OF EXISTENCE AND EXACT LOCATION OF ALL SERVICES MUST BE OBTAINED FROM THE INDIVIDUAL UTILITIES BEFORE PROCEEDING WITH CONSTRUCTION.

Site Survey by SEG Engineering
Summer 2004
Spot elevation are not geodetic. They are all in relation to a control point of 100.0 metric, as shown on the plan as CPI.
