B14.1 Award of the Contract shall be based on the following bid evaluation criteria:

- (c) Total Annual Bid Price;
- (d) economic analysis of any approved alternative pursuant to B5.

B14.2 Further to B14.1(a), the Award Authority may reject a Bid as being non-responsive if the Bid Submission is incomplete, obscure or conditional, or contains additions, deletions, alterations or other irregularities. The Award Authority may reject all or any part of any Bid, or waive technical requirements if the interests of the City so require.

B14.3 Further to B14.1(b), the Award Authority shall reject any Bid submitted by a Bidder who does not demonstrate, in his Bid Submission or in other information required to be submitted, that he is responsible and qualified.

B14.4 Further to B14.1(c), the Total Annual Bid Price shall be the sum of the quantities multiplied by the unit prices for each item shown on Form B: Prices.

B14.4.1 If there is any discrepancy between the Total Annual Bid Price written in figures, the Total Annual Bid Price written in words and the sum of the quantities multiplied by the unit prices for each item, the sum of the quantities multiplied by the unit prices for each item shall take precedence.

If the Bidder has not bid on both alternatives or on all sections in Alternative 2, he shall have no claim against the City if his partial Bid is rejected in favour of an award of the Contract on the basis of an alternative or section upon which he has not bid.

B15. AWARD OF CONTRACT

B15.1 The City will give notice of the award of the Contract by way of a letter of intent, or will give notice that no award will be made.

B15.2 The City will have no obligation to award a Contract to a Bidder, even though one or all of the Bidders are determined to be responsible and qualified, and the Bids are determined to be responsive.

B15.2.1 Without limiting the generality of B15.2, the City will have no obligation to award a Contract where:

- (a) the prices exceed the available City funds for the Work;
- (b) the prices are materially in excess of the prices received for similar work in the past;

- (e) in the judgment of the Award Authority, the interests of the City would best be served by not awarding a Contract.

Further to E10.6, the Contractor will be required to report back by noon of the following Working Day when the service requests are transmitted electronically. Failure to do so will result in a service fee of seventy-five dollars (\$75.00) per occurrence. In any event, however, the Contractor may not start earlier than 7:00 a.m. or carry out collections past 10:00 p.m.

E11.3 Holidays

The Contractor shall maintain the specified collection schedule at all times, notwithstanding that periodically, a scheduled collection day will fall upon a statutory holiday. Under such conditions, the Contract Administrator may permit specific variation (on an occurrence by occurrence basis) where advance notice is provided to, and approved by, the Contract Administrator at least seven (7) calendar days prior to the statutory holiday. E13. PEAK PERIODS

E13.1 There is considerable variation in the amount of recyclables to be picked up in a given area periodically. The Contractor shall meet this variation in demand by using extra equipment, manpower or overtime, if required, in order that the recyclables are regularly picked up as scheduled.

E13.2 The Contractor shall provide, maintain, operate and assign an adequate number of vehicles to each route, as approved by the Contract Administrator, to properly maintain the level of service specified in this Contract.

E14.8 The collection vehicles may be new or used, at the discretion of the Contractor.

E15. PUBLIC INFORMATION ON COLLECTION VEHICLES

E15.1 The Contract Administrator may also require the Contractor to affix signs on each side and/or the rear of each collection vehicle that proclaim messages of public interest or promote any aspect of environmentally themed programs being carried on by the City of Winnipeg. Said signs shall be paid for and supplied by the City. The City shall be responsible for all costs associated with affixing the signs to each collection vehicle in a manner and position acceptable to the Contract Administrator.

E16. INSPECTION

E16.1 Periodic inspections of the Contract area, including vehicle inspections and contents therein contained, may be made by the Contract Administrator to verify that the service supplied by the Contractor is adequate in all respects. If any deviations from the requirements of the Contract exist, they will be noted, and the Contractor or representative will be notified, either orally or in writing, of the corrective measures to be taken. Such periodic inspections do not relieve the Contractor in any way from making independent inspections to ensure that the work is being performed satisfactorily.

E17. WEIGHING RECYCLABLES

E17.1 The processing facility and weigh scale, operated by International Paper Industries, Ltd. is located at 1029 Henry Avenue.

E17.2 The Contractor shall be required to obtain from the Processing Contractor weigh tickets for each load of recyclables delivered to the receiving facility. The Contractor may provide written request to the Contract Administrator under certain circumstances to extend the operating hours of the scale.

E18. REJECTION OF INCOMING MATERIAL

E18.1 Audits will take place periodically throughout the length of this Contract. Incoming materials will be rejected upon inspection at the processing facility if there is contamination level of more than five percent (5.0%) non-recyclable materials by weight.

E18.2 It will be the responsibility of the Collection Contractor to sort the material of any rejected loads and dispose of the excess contamination at the Brady Road Landfill at no additional cost to the City. The recyclable materials must then be processed at the processing facility.

E19. WORK PERFORMANCE AND EQUIPMENT BREAKDOWN

E19.1 If, in the opinion of the Contract Administrator, the Contractor is not performing the Work reasonably in accordance with the approved schedule, the Contract Administrator may demand, in writing, more trucks and/or staff to be provided by the Contractor immediately, and upon the Contractor's failure to provide them, the City may arrange to hire additional trucks and staff and charge the cost of such hire to the Contractor, in addition to any applicable liquidated damages. The Contractor shall immediately notify the Contract Administrator or designate whenever peak period excesses or equipment breakdowns occur that are likely to generate delays in the regularly provided collection service. The Contract Administrator shall be advised as to the Contractor's plans to correct this deficiency in service.

E19.2 The Contractor shall be responsible for any cleaning of spillage resulting from leakage of any fluids that may be discharged from the Contractor's equipment during and after collection at any site.

E20. IMPASSABLE ROADWAYS

- E20.1 The recyclables shall be collected under all weather conditions, with the exception of impassable roadway due to an act of God (such as a flood or an exceptionally heavy snowfall), which temporarily prevents the performance of the Works of the Contract. However, even in such cases, areas or parts of areas that are able to be collected shall be serviced. Service may be temporarily postponed only with the permission of the Contract Administrator. Should a temporary postponement of service be allowed, service must be resumed at the earliest possible time following the postponement, or as stipulated by the Contract Administrator.
- E20.2 Should weather conditions exist such that the Contract Administrator deems it necessary to omit certain collections altogether, no payments will be made, even though recyclables are generated and shall be picked up on subsequent collections.
- E20.3 The Contractor shall notify the Contract Administrator of any roadway that the Contractor considers impassable. In the event that the roadway is declared by the Contract Administrator to be impassable, the Contractor and Contract Administrator shall mutually agree to a method of removing the recyclables and the Contractor shall remove the recyclables agreed to within the next two working days. Payment for the additional Work involved in the collection of the recyclables removed in this manner will be made as extra Work under this Contract. The extra Work entitlement shall be only that Work which is required by the Contractor to remove the recyclables from the impassable roadway to a point where it can be picked up by the Contractor at the nearest passable roadway.
