#### **PART B – BIDDING PROCEDURES**

Revise: B9.4 to read: The Fee Proposal shall also include an allowance for Allowable Disbursements as defined in C1.1(b).

#### **PART D – SUPPLEMENTAL CONDITIONS**

Add D4.3

D4.3 Appendix C has been provided for information purposes only. These samples are being provided to demonstrate how past Process & Instrument diagrams (P&ID) were formatted and standardised to give Consultants an idea of what they will be expected to produce for the deliverables. This Appendix is provided for context rather than content.

Clarification of D4.2.4(a): Consultants should use their judgement and experience to propose the best combination of private contractor services and City of Winnipeg resources to undertake the substructure assessments. Water and Waste personnel will be involved at a minimum in supervision of required shutdowns and flow restrictions to ensure city residents are not impacted by the proposed works.

Clarification of D4.2.5(b): Precedent P&IDs, (APPENDIX C). P&IDs proposed should have similar layout, nomenclature, symbols and level of detail.
