Quartet® Prestige Plus® Diamond Mesh Fabric Bulletin Board

Highly durable, densely woven 3' x 2' magnetic diamond-mesh bulletin board backed by high-density fiberboard effortlessly secures documents with push pins. Delivers quality performance when communication and collaboration is needed in frequent-use offices and conference rooms. Self-healing surface eliminates unsightly pin holes and will not fade or crumble like traditional cork boards, even after years of use. Ideal for high-profile, heavy-use executive offices and conference rooms. High-density backing for maximum pin-holding power, ensuring documents stay securely posted. Fasten photos or important documents without holes using included Quartet® Quick Clips. Patented Easy Mount™ hanging system secures board to wall in multiple places, guaranteeing easy and accurate installation. Sleek polished-aluminum frame complements a wide range of interiors. Available in other sizes and frames. 100% Satisfaction Guaranteed.

Mobile & Wall Mount Hose Drying Systems

GearGrid's mobile hose drying system promotes faster hose drying within a limited amount of space.

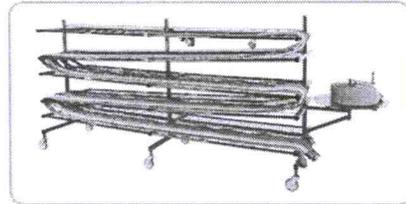

Constructed with durable steel tubing and a strong wire grid system, it dries up to 200' of 2-1/2" and 350' of 1-1/2" hose simultaneously (in 50' lengths). The optional hose winder, with removable handle, makes rolling hose a breeze.

For a permanent solution, our wall-mounted hose drying system can be mounted virtually anywhere. The open wire grid system promotes maximum air movement, providing one of the most economical hose drying options available.

Size - Wall Mount: 312" L x 36" H x 18-1/2" W

Quartet® Prestige Plus® Magnetic Total Erase® Porcelain Boards

Communicate with style and efficiency. Ideal for heavy-use environments, the Prestige Plus® Magnetic Total Erase® Porcelain Boards blend exceptional functionality and elegant design. The DuraMax® Porcelain will not scratch or dent with heavy-use. The smooth, easy-to-maintain Total Erase® surface will not stain or ghost, looking new, even after years of use. The steel-backed porcelain creates a magnetic surface, doubling its uses for communication and collaboration needs. A patented "Easy Mount" hanging system allows for quick and secure installation. An attached marker tray conveniently stores markers and accessories. The board comes complete with Quick Clips for posting documents and four Quartet® dry-erase markers. Bold, contoured styling and a variety of frame finishes allow you to customize any meeting room with sophisticated style and high design.

- Depend on top-of-the-line Prestige Plus® porcelain surface for maximum durability in heavy-use environments
- Trust that DuraMax® Porcelain will not scratch or dent for long-lasting durability
- Clearly communicate with Total Erase® surface that will not stain or ghost
- Versatile, magnetic surface doubles as a bulletin board or projection screen
- Clean and maintain board with ease
- Modern, anodized aluminum frame complements contemporary environments
- Secure board to wall with patented "Easy Mount" hanging system
- Attached marker tray and four assorted Quartet® dry-erase markers included
- Quickly secure documents with provided Quick Clips

7.2 cu. ft. SuperSize Capacity Plus Maytag® Performance Series Front-Load Electric Dryer

Benefits

Dependable Performance

Steam Refresh Cycles

Fine mist, combined with heat while clothes are tumbling, forms steam to help remove odors and relaxing wrinkles from a few items or an entire load.

NSF® Certified Sanitary Cycle

Allows you to sanitize items you wouldn't normally wash, like pillows or stuffed animals.

NSF is a registered trade-mark of NSF International

GentleBreeze™ Drying System with IntelliDry® Sensor

Quickly and efficiently dries clothing in a counterclockwise loop to touch the entire load for more consistent results.

SuperSize Capacity Plus

A 7.2 cu. ft. capacity drum in the YMEDE500V means you can dry more laundry in every load, reducing the number of loads washed each week.

Dependable Durability

Maytag® Commercial Technology

Long-lasting, commercial-grade components for your home. Complete with a commercial-grade belt, metal bearings, a durable metal motor, steel baseframe, die-cast door hinges, steel side panels and suspension system— this drive system brings the proven technology of commercial laundry home.

Direct Feed, Easy-Plumb (DFP) Water Hook-Up

Delivers water directly to the dryer for dependable, hassle-free steaming every time.

Smooth Balance™ Suspension System

Minimizes noise and vibration, allowing you to install your laundry off main living spaces or on the second floor.

White | MHWE450WW

NEW! 4.5 cu. ft. Maytag® Performance Series Front Load Washer

Benefits

DEPENDABLE PERFORMANCE

NSF® Certified Sanitization Cycles

Certified by NSF International, selecting the Sanitize Water Temperature Option raises the temperature to 157°F (69.4°C), eliminating 99.9% of household bacteria.

NSF is a registered trade-mark of NSF International

NEW! Fresh Hold™ Option

The industry's first built-in fan is part of Dynamic Venting Technology™ and helps keep clean laundry from smelling bad, so you can wash tonight and dry tomorrow. Stop worrying about leaving clothes in the washer too long.

NEW! Power Wash Cycle

Extra Cleaning action and a deep rinse power out tough stains and ground-in mud and dirt. The built-in water heater delivers higher wash temperatures to ensure better soil and stain removal.

DEPENDABLE DURABILITY

Maytag® Commercial Technology

Long-lasting, commercial-grade components for your home. Complete with a commercial-grade belt, stainless steel wash basket, metal bearings, a durable metal motor, steel baseframe, die-cast door hinges, steel side panels and a 6-point suspension system—this drive system brings the proven technology of commercial laundry home.

NEW! 10-Year Warranty on Washer Components

New Maytag® Performance Series washers include a 10-year warranty on the washer motor and the stainless steel wash basket. See warranty for details.

DEPENDABLE EFFICIENCY

ENERGY STAR® Qualified

The 4000 Series high-efficiency wash system uses 74% less water and 77% less energy than an average conventional top load washer.

26" high-definition LCD TV

30000 : 1 contrast ratio
Wide Colour Enhancer 2
8 ms response time
1080 24 P real movie

The LN26B460 is the perfect size for your kitchen, spare room or anywhere you need a smaller HDTV that still delivers an amazing picture. The 30000 : 1 dynamic contrast ratio creates outstanding clarity and lifelike images. The 8 ms response time produces smooth-motion in action scenes. It also features our classic black bezel with a new twist-the bottom bezel and neck are transparent, creating a more modern look. Enjoy your favourite movies and TV shows in bright, bold colour with this SAMSUNG LCD HTDV.

30000 : 1 contrast ratio

Contrast and brightness levels achieve new heights in this LCD TV. Watch movies and shows come to life with enhanced details in very dark or bright scenes. Enjoy a more realistic, sharper picture quality that's sure to catch your eye.

Wide Colour Enhancer 2

The colours, perfected by nature remain vibrant and pure with SAMSUNG's Wide Colour Enhancer 2 technology. Images are saturated with vivid, natural colour due to the expanded range of colour expressions. By strengthening the reds, greens, and blues, you get more depth and intensity in images that might have previously looked weak, or washed out.

8 ms response time

One of the most important features for an LCD panel is the pixel response time. Response time refers to the amount of time it takes a pixel to "refresh" itself to go from being active to being inactive, (ready to be re-activated). The lower the milliseconds, the faster the response time. A very fast 8ms gives you smooth-motion action scenes.

1080 24 P real movie

Watch movies in their original 24 frames-per-second format, the way that they were intended to be seen. Real Movies Support 24 fps sources through the HDMI outlet.

SRS TruSurround HD

SAMSUNG TVs are equipped with the best that technology can offer in sound quality. Our 2 speakers always deliver an enhanced, virtual surround-sound listening experience that brings your HDTV experience to another level.

eco friendly

SAMSUNG LCD series are ENERGYSTAR® efficient and have been designed to lower your power consumption by 20%. SAMSUNG Eco TV packaging material is recyclable, mercury free, and contains no toxic or volatile compounds.

Touch of Colour™
 Auto Motion Plus™ 240 Hz
 Wide Colour Enhancer 3
 Content Library Flash

Imagine light, colour and glass coming together in an original expression of beauty. The award-winning SAMSUNG series 7 750 Touch of Colour™ LCD features amazing picture quality with 1080p resolution, a 150000:1 dynamic contrast ratio, plus Auto Motion Plus™ 240 Hz which delivers action scenes that are more realistic than ever before. Add SAMSUNG's exclusive Medi@2.0 networking suite and an ENERGY STAR® 3.0 rating and take your entertainment experience - and your décor - to the next level.

Touch of Colour™

The beauty of nature lies in ever-changing form, colour, and light. New materials offer a never-seen-before TV that captures the essence of natural beauty through natural light and subtle tones which constantly appear to change with the viewing angle. In addition, since spray paint is not used, we've been able to eliminate the emission of Volatile Organic Compounds, making your TV 90% recyclable.

Auto Motion Plus™ 240 Hz

There's a big difference between seeing the game and seeing every split second of it. That's where Auto Motion Plus™ 240 Hz technology comes in. All the action in every frame is analyzed and then adjusted so nothing goes by in a blur. The smoothest, sharpest images are always available, even when images are moving at the highest speeds.

Wide Colour Enhancer 3

Next to actually being there, the best way to experience true to life colours is with our Wide Color Enhancer 3. It covers all the colours in the RGB spectrum, and brings out deeper shades of the most natural colours like magenta, cyan and yellow.

Content Library Flash

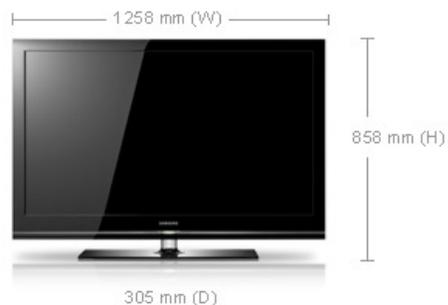

Suppose you feel like playing a game of chess or cooking instead of watching TV. SAMSUNG LCD series 7 TV's Content Library Flash feature lets you do just that. Enjoy hours of built-in entertainment features and then personalize it by adding content that's available online. And downloading is easy. There's so much you can do with our LCD series 7 TVs.

UniMac®

- 35 lb Washer-Extractor
- 60 lb Washer-Extractor
- 100 lb Washer-Extractor
- 150 lb Washer-Extractor
- PPE Drying Cabinet

***Commercial Laundry System
for the Fire Service Industry***

The Right Equipment for Your Gear

You depend on **PPE gear** to keep you safe. Why trust its care to anything less than an expert?

For years, firefighters have relied on UniMac's expertise in manufacturing **durable, easy-to-operate** equipment, like our UW model washer-extractor, to clean turnout gear and station items. We've strengthened that commitment to the fire industry with the introduction of our PPE Drying Cabinet. The cabinet gently dries bunker gear, returning it to service quickly.

UniMac's **PPE cleaning experts** provide a turn-key solution to your laundry needs. There are specific requirements for how laundry equipment should handle PPE gear. First, extraction speeds should fall within 400-600 RPM. Our washer-extractors meet this requirement.

Second, several turnout gear manufacturers advise against tumble drying of their protective clothing. UniMac's PPE Drying Cabinet eliminates that concern.

We know your gear is expensive, and our complete system can provide a longer life to that critical equipment. **Put your trust in UniMac's expert solutions.**

Five-Year Limited Parts Warranty on Washer

A five-year limited parts warranty is issued on the frame, basket, shaft, bearings and seals if failure or breakage should occur during normal operation due to defects in material or workmanship that would prohibit its further use. A three-year warranty also is issued to the original purchaser on most other parts. Labor not included.

A one-year warranty is issued to the original purchaser on the PPE Drying Cabinet. Labor not included.

The cleaning of your turnout gear is an essential component of operating a fire department. It is widely reported that the proper cleaning of your gear will lengthen its useful life. It is also reported that removing carcinogenic hydrocarbons from the gear protects firefighters. When you combine these issues with NFPA 1851 procedures for proper in-house cleaning of turnout gear, your department can't afford to be without a washer and dryer.

The most difficult part of your decision is determining which laundry equipment will be your best tools to complete the job. While UniMac makes more than 100 different machines, the models listed here are our choices for easy and reliable cleaning of turnout gear. Don't be fooled by inexpensive models that don't offer the critical features needed for protecting your gear.

UniMac Checklist for the Right Washer

- ✓ Heavy-duty Gamma A-frame for long life with the industry's best warranty.
- ✓ Heavy-duty, oversized bearings with the industry's best warranty.
- ✓ Easy-to-use push-button start – 39 programmable cycles.
- ✓ Flexible wash cycles that can be changed in future years as requirements change.
- ✓ Precise, automated detergent dispensing below water level and never directly on turnout gear.
- ✓ Soak cycle capable of easily removing heavy soils with minimal mechanical action, reducing wear on protective gear.
- ✓ Washer only tumbles at proper water level, preventing unnecessary abrasion of the gear.
- ✓ Out-of-balance load protection with use of out-of-balance safety switch.

Drying Cabinet Features

The **programmable control** is designed with five factory preset programs ranging from 1.5 hours to 3 hours in length. It is easy to use by selecting one of the cycles and pressing "Start." Additional time can be added as required.

Special Options

- Boot Rack – holds two pairs of boots
- Glove Rack – holds four pairs of gloves

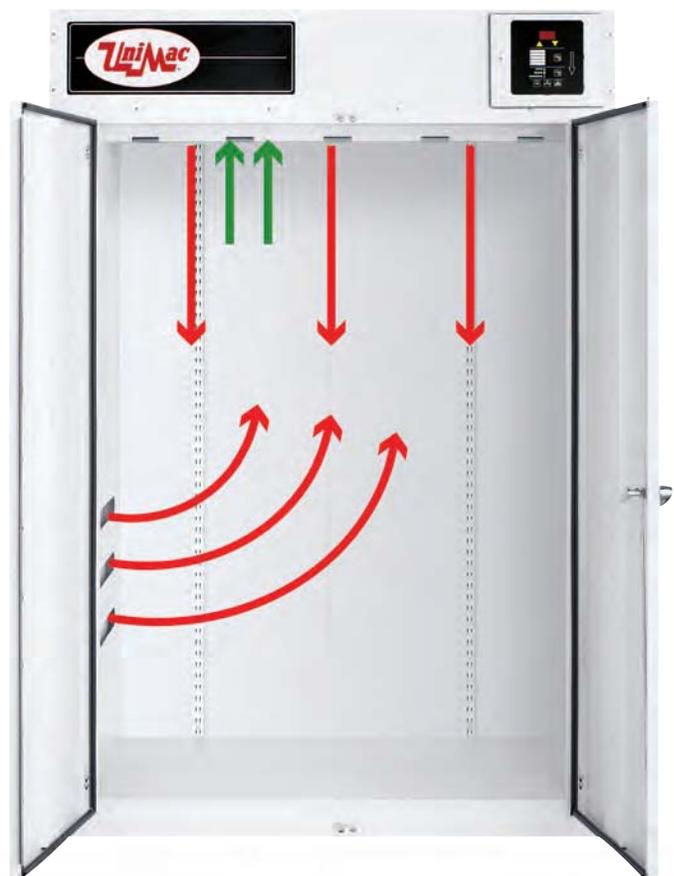

UniMac Checklist for the Right Dryer

- ✓ No tumble drying prevents excessive wear and tear.
- ✓ Maximum heat setting of 110°F.
- ✓ Easy-to-use push-button start – five programmable cycles.
- ✓ Removable hangers for easier handling.
- ✓ Two independent heating and fan systems.
- ✓ Highly-valued add-on accessories.
- ✓ Short drying times.

Drying From the Inside Out

The PPE Drying Cabinet forces heated air through the hangers and the insides of the turnout gear. Air also is forced through the cabinet's side panel allowing it to move upward and around the outside of the gear.

- Dual-sided airflow allows for fast, efficient drying of both the inside and outside of the gear.
- Recirculated air conserves energy.
