REQUEST FOR PROPOSALS FOR THE PROVISION AND INSTALLATION OF AUDIO LOGGING EQUIPMENT

ISSUED: March 4, 2015
BY: Cindy Kirby
TELEPHONE NO.   (204) 226-2075

URGENT

PLEASE FORWARD THIS DOCUMENT TO WHOEVER IS IN POSSESSION OF THE REQUEST FOR PROPOSAL

THIS ADDENDUM SHALL BE INCORPORATED INTO THE REQUEST FOR PROPOSAL AND SHALL FORM A PART OF THE CONTRACT DOCUMENTS
Template Version: Ar20131129

Please note the following and attached changes, corrections, additions, deletions, information and/or instructions in connection with the Request for Proposal, and be governed accordingly. Failure to acknowledge receipt of this Addendum in Paragraph 9 of Form A: Proposal may render your Proposal non-responsive.

PART A – PROPOSAL SUBMISSION

Replace: 553-2014 Addendum 1 - Proposal Submission with 553-2014 Addendum 2 - Proposal Submission. The following is a summary of changes incorporated in the replacement Proposal Submission:

Form B(R2):   Add Items No. 25 to 26 inclusive.

QUESTIONS AND ANSWERS

Q1   Per E4.21.5, is "within" same as "internal"?

A1   No. To clarify, per E4.21.5 the system shall have RAID-5 within the system "design".

Q2   Per E4.21.6, is the intent that each logger must have one storage array?

A2   Yes. Each logger (Main AND Back-up) will each have its own dedicated RAID-5.

Q3   Per E4.21.6, which will thus lead to redundancy at each site (since 2 loggers, each with independent storage)?

A3   Yes. Each logger (Main AND Back-up) will each have its own dedicated RAID-5.

Q4   Per E4.21.6, please clarify how much storage must be included "internal" to each logger, and the minimum acceptable drive configuration (RAID-1 or RAID-5)?

A4   To clarify, each logger will have RAID-1 internal (per E4.21.2) AND RAID-5 external (per E4.21.6).

Q5   Per E4.17.7, is it actually desired and required (or have option) to "natively" store audio data in an open, non-proprietary standard?

A5   No it is not desired and required to "natively" store in an open format. Section E4.17 is the Search/Replay format section for records distribution (eg: court audio).

Q6   Per E4.17.8, does the term web based refer to network based access or Internet browser access?

A6   For clarification per E4.17.8. The system shall provide for channel naming from remote workstation with either a web based application or client software to facilitate the search and retrieval process.

Q7   Please clarify whether E4.18.3 (20 Instant Recall positions) is in addition to the 5 remote client connections (E7.5)?

A7   The 20 instant recall user positions is in addition to the 5 remote access user interfaces. There will be 20 IR users AND at any given time up to 5 remote administrators. This does not necessarily imply Form B pricing (items 7-10) needs to be changed.

Q8   Please confirm that the extended support, is as listed in E7.8, that is, ie: no "on-site" service requested. The reason for this question is that requirement B19.5 and B19.6 asks to describe on-site support.

A8   Yes, this is correct (ie: no "on-site" service requested), noting that section B19.5 and B19.6 are provisions for description of capabilities for on-site support and how this is achieved. Note sections B8 (specifically B8.2 and B8.5) and B28.

Q9   Should there be line items for year 4 and year 5 for the Secondary Site?

A9   See Addendum 2 – Bid Submission.

Q10   Should the extended warranty for the NAS (Items 3 and 6) be lumped into items 16-21 or itemized separately?

A10   They should be lumped in to items 16-21.
