EPDM MEMBRANE

WARRANTY TO THE CITY OF WINNIPEG

FOR PROJECT:

WILKES RESERVOIR NORTH CELL REHABILITATION

BID OPPORTUNITY NO. 930-2015

Manufacturer's Name and Address

does hereby provide, in accordance with the Specifications of the Contract, the following Warranty for the herein identified EPDM membrane.

The EPDM membrane is warranted against the following defects attributable to defective materials for a period of twenty (20) years from the date of issue of the Certificate of Total Performance of the project:

1. Premature deterioration in forms of cracking, brittleness, loss of elongation characteristics, tearing resistance, and water absorption qualities to the point of failure under the effects of historical local climatic conditions.

Remedial works covered by this warranty shall include the repair or replacement of the defective EPDM membrane area. The cost of removal and replacement of material above or adjacent to the membrane is not included in this warranty.

All remedial works shall carry a minimum twenty (20) year warranty as stipulated above.
