Please note the following and attached changes, corrections, additions, deletions, information and/or instructions in connection with the Request for Proposal, and be governed accordingly. Failure to acknowledge receipt of this Addendum in Paragraph 9 of Form A: Proposal may render your Proposal non-responsive.

TITLE

Revise: Title to read: REQUEST FOR PROPOSAL FOR PROFESSIONAL CONSULTING SERVICES FOR TRURO CREEK CULVERT REPLACEMENTS AT WINCHESTER STREET, **LINWOOD** STREET, AND NESS AVENUE

PART D – SUPPLEMENTAL CONDITIONS

Add: D3.14: There is possible instability of creek banks. An investigation starting approximately 100 m upstream of the Winchester Street culvert extending to approximately 60m downstream of the Ness Avenue culvert is needed to determine what measures if any are required to maintain stability.

Revise: D5.10(a) to read: Confirm road and sidewalk requirements with the City of Winnipeg. It is anticipated that the two vehicular lanes and all sidewalks that exist on Winchester Street and Linwood Street are to be maintained. Perform a road condition assessment on Winchester Street and Linwood Street, **between** Ness Avenue and Silver Avenue, as part of the Preliminary Design. For the Ness Avenue culvert location, it is also anticipated that the four vehicular lanes and all sidewalks will be maintained.
