

594-2017 ADDENDUM 1

REQUEST FOR PROPOSAL FOR PROFESSIONAL CONSULTING SERVICES AT IN-TOWN PUMPING STATIONS PRELIMINARY DESIGN OF DISINFECTION UPGRADES

URGENT

PLEASE FORWARD THIS DOCUMENT TO WHOEVER IS IN POSSESSION OF THE REQUEST FOR PROPOSAL

ISSUED: August 31, 2017
BY: Jeff Brooks
TELEPHONE NO. 204 - 986-2072

THIS ADDENDUM SHALL BE INCORPORATED INTO THE REQUEST FOR PROPOSAL AND SHALL FORM A PART OF THE CONTRACT DOCUMENTS

Template Version: Ar20160708

Please note the following and attached changes, corrections, additions, deletions, information and/or instructions in connection with the Request for Proposal, and be governed accordingly. Failure to acknowledge receipt of this Addendum in Paragraph 9 of Form A: Proposal may render your Proposal non-responsive.

PART B – BIDDING PROCEDURES

Revise: B11.2(a) to read: The Proponents Project Manager (referred to as the Contract Administrator throughout in the RFP).

PART D – SUPPLEMENTAL CONDITIONS

Add: D3.3 The current total chlorine at the In-Town Pumping Stations is 0.5 mg/L at the pump station intakes, 1.3 mg/L at the pump station discharges. The result is the tonners need to be changed out every two (2) to three (3) weeks depending on the season and the individual Pumping Station. The design flows for the individual pump stations to be considered are listed below:

Design Parameter	MacLean	McPhillips	Hurst
Process Flow (ML/day) ¹			
Range (min-max) ¹	36.2-103.3	10.4-117.3	10.5-168
Average	63.7	54.3	98.4
Chlorine Dosage (mg/L)			
Average	1.0	1.0	1.0
Maximum	1.4	1.4	1.4

1 Determined from 2005 to 2010 operations.

Add: D3.4 The combined current pumping capacity demand of the three In-Town Pumping Stations is 190 to 225 megalitres per day.

Add: D3.5 The current process upgrades to the chlorination systems at the In-Town Pumping Stations where completed in 1994.

Add: D5.3 Available historical data, trends, operational manuals and hazard materials reports will be available to the successful Proponent to use. For non-electronic documents the Proponent will be responsible for the creation of an electronic file for the Proponents use and for turning over to the City as part of the project documentation.

PART E – SPECIFICATIONS

Revise: E2.6(a)(ii) to read: Upon completion of the Phase I – System Assessment technical report to present and discuss the final report to the Advisory group.

Revise: E2.6(a)(iii) to read: Upon completion of the Phase II – Design and Construction Assessment technical report to present and discuss the final report to the Advisory group.

PHOTOGRAPHS

Photographs requested during the Site Investigation tours on Thursday, August 24, 2017 have been uploaded to the confidential FTP site. Proponents who have access to the FTP site can refresh the page to see the new information. Proponents who do not have access to the FTP site must contact the Project Manager identified in D2.1 to request access. Proponents will be required to sign the non-disclosure agreement included in Appendix F prior to accessing the confidential FTP site.
