

595-2018 ADDENDUM 1

HOURLY AND VOLUME RATES FOR HIRED EQUIPMENT SERVICES FOR THE BRADY ROAD RESOURCE MANAGEMENT FACILITY

URGENT

PLEASE FORWARD THIS DOCUMENT TO WHOEVER IS IN POSSESSION OF THE BID OPPORTUNITY

ISSUED: September 13, 2018
BY: Ash Raichura, P.Eng.
TELEPHONE NO. 204 986-2962

THIS ADDENDUM SHALL BE INCORPORATED INTO THE BID OPPORTUNITY AND SHALL FORM A PART OF THE CONTRACT DOCUMENTS

Template Version: A20160708

Please note the following and attached changes, corrections, additions, deletions, information and/or instructions in connection with the Bid Opportunity, and be governed accordingly. Failure to acknowledge receipt of this Addendum in Paragraph 8 of Form A: Bid may render your Bid non-responsive.

PART A – BID SUBMISSION

Replace: 595-2018 Bid Submission with 595-2018 Addendum 1 - Bid Submission. The following is a summary of changes incorporated in the replacement Bid Submission:

Form B(R1): Revise Approx. Quantity for Items No. 1, 3, 4, and 7.

Form B(R1): Revise Spec. Ref. for Items No. 1, 2, 3, 4, and 7.

Page numbering on some forms may be changed as a result.

PART B – BIDDING PROCEDURES

Add: B18.1.1 Notwithstanding B18.1, the City anticipates award of the Contract by January 21, 2019.

PART D – SUPPLEMENTAL CONDITIONS

Add: D21.7.1 The maximum price adjustment to the first day of the Contract shall not exceed five percent (5%).

Page numbering on some forms may be changed as a result.

PART E – SPECIFICATIONS

Revise: E7.9 to read: The Contractor shall, on demand, produce valid certificates of inspection, issued by the applicable governmental authority or other authorized agencies, for all applicable Equipment.

Revise: E7.10 to read: In addition to any Equipment safety requirement required by legislation, all **Equipment** shall be equipped with the following safety equipment:

Revise: E10.1(c) to read: The crawler must be equipped with a ROPS cab, **wide pads**, climate controlled cab, wipers, powershift transmission, strobe beacon light, backup alarm (78 db minimum), and equipped with front headlights and rear work lamps.

Delete: E10.1(f)

- Add: E10.2(d) This unit will be used to push refuse (garbage) and place cover material as well as assist the material moving equipment in the handling of excavated material.
- Add: E10.2(e) Tracks shall be equipped with cleats for improved traction in the winter months, as defined by the Contract Administrator.
- Revise: E10.3(d) to read: The water truck must be equipped with climate controlled cab, wipers, strobe beacon light, and backup alarm (78 decibels minimum).
- Revise: E11.5 to read: If the Contractor utilizes rock trucks for material moving, the per cubic rate provided in Form B (R1): Prices shall be inclusive of any ancillary equipment necessary to excavate or load material at the point of origin and any necessary equipment required for the placement or levelling of loads delivered to the point of destination. Further the ancillary equipment **may** be the equipment that is designated for use listed on Form B (R1): Prices 1 and 2.
- Revise: E11.6 to read: There is a City-owned supply of cover material at the Site, which may be used by the Contractor for daily cover, intermediate cover, final cover, and for use in the construction of pads, turnarounds and non-paved roads. The Contractor will be responsible for safe excavation, handling, stockpiling, transportation and placement of cover material **when assigned the task of "Application of Daily Cover"**. The excavation of cover material from the on-site stockpiles shall not create slope instability that could harm persons or property.
- Revise: E10.3(d) to read: All equipment bid and supplied under this Contract must remain and be available for use on Site at all times with the exception of the following: water truck, and material moving equipment which, with the permission of the Contract Administrator may be removed from the Site when not in use.
- Revise: E12.3 to read: Daily cover is to be applied to the active face each working day, either by the City or the Contractor. The Contractor may permitted to utilize alternate daily cover, as approved by the City, on the active face six (6) out of seven (7) Working Days.
- It is the City's intent to apply alternative daily cover utilizing City forces; the Contractor may be requested to apply soil as daily cover on days that alternate daily cover is not applied, if this work is not completed by City forces.
- Revise: E12.3 to read: Measure and payment for Application of Daily Cover will be a lump sum payment for the hauling and spreading of daily cover material. The request for the Contractor to apply daily cover will be submitted to the Contractor in writing 24 hours in advance. If no request is provided, the Contractor may assume that the City is taking responsibility for application of daily cover on that day.
- The lump sum payment is based on an application area of 1,000 m², and a daily cover thickness of 300 mm. The Contractor will not be compensated for over application of daily cover; if the Average Thickness of Daily Cover Application exceeds 500 mm, there will be no payment for Application of Daily Cover.
