QUESTIONS AND ANSWERS

- Q1: How are we supposed to know what to carry for Delivery if:
1. D13.2 says "Orders shall be a minimum of 250 units" delivered and off-loaded to 495 Archibald Street
 2. D10.1 says "Goods shall be delivered on an "as required" basis during the term of Contract, f.o.b. destination, freight prepaid
- A1: A PO will be issued for a minimum of 250 units on as required (refer to D2.2 and D2.3 of the Tender). Delivery is based on the PO being issued meaning the full order of the PO is delivered. Units required will be based on operational requirements throughout the term of the contract with a minimum order of 250 units. The qty stated in Form based is an estimate required for the contract.
- Q2: Form B only has one option for "Unit Price" and gives no chance to break apart the Delivery/Offload. However pricing for freight of 250 units delivered at once would be the same price for lets say 3 pieces delivered at once.
- A1: Refer to B9 (PRICES) of the Tender.
