#### **QUESTIONS AND ANSWERS**

Q1: Section E3.1 lists 7 items, E3.4 and E3.5 refers to the material moving equipment. Then Section E10.2.2 States ***“The hourly unit rate for Material Moving Equipment shall include one ADT and one Excavator working in tandem.”*** Is the one ADT a miss print? Should it be two ADTs or will there be an additional price line added the Form B for the second ADT.

A1: The “Approximate Quantity” of 3,000 hours presented for Item 3 on Form B: Prices represents the estimated hours for the two ADTs combined (i.e. each of the two ADTs, working in tandem with a single excavator, is estimated to require 1,500 hours).

Q2: Section E7.5 (c) fire suppressant devices, just to confirm that fire extinguishers equipped on the equipment is sufficient.

A2: Fire extinguishers equipped on the equipment is sufficient for the Material Moving Equipment.

The dozers require factory-installed (or equivalent) fire suppression devices.

Q3: What is the basis/timeline for the hours provided on Form B?

A3: The “Approximate Quantity” (hours) provided on Form B: Prices is an estimate of the annual hours, not the total hours for the 5 year contract. Further description of the estimated schedule/hours is provided under E5.3.
