

Firefighters are community helpers and help if there is an emergency. They wear special gear to help them stay safe from fire and smoke. The equipment can look and sound scary, but it keeps them safe.

Memorize your fire department's emergency phone number and write it here:

How to make a
Home Fire
Escape Plan

NFPA The Official Sponsor of Fire Prevention Week Since 1922

- Draw a floor plan or a map of your home. Show all doors and windows.
- · Mark two ways out of each room.
- Mark all of the **smoke alarms** with SA. Smoke alarms should be in each sleeping room, outside each sleeping area, and on every level of the home.
- Pick a family **meeting place** outside where everyone can meet.
- · Remember, practice your plan at least twice a year!

**Grown-ups:** Children don't always wake up when the smoke alarm sounds. Know what your child will do before a fire occurs. Get more information on smoke alarms and escape planning at **nfpa.org/factsheets**.
