

Herbicide Use Programs **PUBLIC NOTICE**

**We will use herbicides for varying periods of time
between May 1, 2025 and October 31, 2025, as follows:**

VisionMax (glyphosate) and Par III (mecoprop-p, 2,4-D and dicamba)
to control vegetation along retention pond shorelines

The herbicides will be used according to federally approved label regulations and the regulations of the Government of Manitoba.

**The public may send written submissions
or objections,
within 15 days of the publication
of this notice to:**
