RE: SOUTH END WATER POLLUTION CONTROL CENTRE (SEWPCC) – ENVIRONMENT ACT LICENCE NO. 2716 RR- QUARTERLY PROGRESS REPORT RESPONSE

Thank you for the May 26, 2022, quarterly progress report response regarding the upgrade projects at the South End Water Pollution Control Centre (SEWPCC) for the reporting period of January, February and March 2022.

In your review of the quarterly report a discrepancy was identified with respect to the completion date associated with the conversion of the high purity oxygen (HPO) tanks to fermenters. In comparison of previous reports, the completion date had changed from Q1, 2023 to Q3, 2022. This was an error. The date of the HPO conversion should read Q3 2023 as outlined in the Notice of Alteration (NOA) submitted to the Province February 25, 2022. The date of Q3, 2022 is the expected commencement of the work and was inadvertently used.

This date has been revised. The city will continue to submit quarterly progress reports covering all of the identified activities and milestones

Should you have any questions on the 'SEWPCC Biological Nutrient Removal and Upgrade Project', please contact me at 204-986-4480 or by email at cjavra@winnipeg.ca.

Sincerely,

Colin Javra, P. Eng.

Project Director, Winnipeg Sewage Treatment Program
